

Okereke Excellence

Full-Stack Developer | SaaS & AI Engineer

Mrcontech1@gmail.com | Lagos, Nigeria (Remote) | mrcontech.vercel.app | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full-Stack Developer with 3+ years of experience building and shipping scalable SaaS web applications. Specializes in delivering MVPs fast for early-stage founders using Next.js, TypeScript, Node.js, Supabase, and PostgreSQL. Proficient with AI-powered development tooling including Cursor and Claude Code. Has shipped mobile apps with React Native, Chrome extensions, and AI-integrated products using modern LLM APIs.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS, Solidity

Frontend: React, Next.js, Vue.js, Nuxt.js, Astro, React Three Fiber, Tailwind CSS

Animation: Framer Motion, GSAP, Anime.js, Rive, Popmotion

Backend: Node.js, Express.js, FastAPI, Flask, REST APIs

Databases & ORM: PostgreSQL, MongoDB, Supabase, Prisma

AI & LLM: OpenAI API, Claude API, Cursor, Claude Code

Mobile & Extensions: React Native, Expo, Chrome Extensions API

Web3: Solidity, Ethers.js, Web3.js

Design & DevOps: Figma, Framer, Webflow, Git, Docker, Vercel, GitHub

WORK EXPERIENCE

Founder & SaaS Developer | Freelance / Self-Employed

Jan 2022 – Present

- Build and ship full-stack SaaS MVPs end-to-end for early-stage founders, handling scoping, architecture, development, and deployment using Next.js, Vue.js, Nuxt.js, Node.js, Supabase, and PostgreSQL.
- Integrate AI features into client products using the OpenAI and Claude APIs, delivering intelligent automation and LLM-powered functionality.
- Develop mobile experiences with React Native and browser tools with Chrome Extensions, expanding product reach across platforms.
- Deliver clean, scalable codebases that founders can maintain and build on post-launch.

Software Developer | Africonnect Global Ltd.

2024 – 2025

- Led full development of the core infrastructure powering the Africonnect platform, ensuring scalability and reliability across all services.
- Managed backend infrastructure and migrated the company to self-hosted services, reducing third-party dependency costs and improving deployment flexibility.
- Redesigned the company landing page end-to-end, achieving approximately 50% increase in conversion rate through improved UX, messaging, and optimised user flows.

PROJECTS

AuditPulse | Next.js, Node.js, Supabase, PostgreSQL, OpenAI API, Tailwind CSS

- AI-powered website audit copilot that scans for broken links, content gaps, performance issues, security vulnerabilities, and market opportunities. Delivers prioritised, actionable insights with PDF export.

Tweetify | Next.js, Supabase, OpenAI API, PostgreSQL, Tailwind CSS

- Full-stack AI Twitter content planner that auto-generates 7 days of optimised tweet ideas per session, including hooks, thread structures, and visual prompt suggestions tailored to the user's niche.

Swiftx | *Chrome Extensions API, JavaScript, OpenAI API, REST APIs*

- AI-powered Chrome extension that generates contextually relevant social media replies and repurposes content across platforms, helping creators grow engagement without manual effort.

Clueyflow AI | *Next.js, Node.js, OpenAI API, WebSockets, Tailwind CSS*

- Full-stack TTS and STT SaaS leveraging AI for advanced text-to-speech and real-time speech-to-text processing with fast conversion speeds and a clean user experience.

Inspectlens | *Chrome Extensions API, JavaScript, CSS*

- Chrome extension that gives developers one-click access to any site's CSS, colour palette, typography, images, SVGs, and animation files, turning UI inspection and asset extraction into a fast visual workflow.

Terrastay | *React Native, Node.js, MongoDB, REST APIs*

- Mobile-first real estate marketplace connecting students with verified, campus-adjacent lodges. Features listing management, search filtering, and landlord verification workflows.

AuraCargo | *Next.js, Node.js, PostgreSQL, Prisma, Tailwind CSS*

- Full-stack logistics MVP featuring comprehensive admin and user dashboards for end-to-end shipment tracking, management, and reporting.

EDUCATION

B.Sc. Computer Science | Ebonyi State University, Abakaliki *2022 – Jun 2026 (Expected)*

- Relevant coursework: Software Engineering, Data Structures and Algorithms, Database Systems, Computer Networks.
